

National ID application form

- Please fill in this form using only the pen provided and the appropriate genetic material. Wash your hands thoroughly and apply the supplied hair net and face mask before removing the pen from its protective packaging.
- To prevent cross-question contamination occurring, you must microwave the pen for 30 seconds on full power between each answer. If you do not have a microwave, you should ask for the boil-in-the-bag version of this form.

Please provide an Iris Dump of your eye.

Stand in strong light, holding the form 30cm from your face.

Stare at the black dot, until your eyes water. Do not blink.

Cross your eyes so that the calibrated circle contains the black dot.

Blink. The Iris Dump has been saved in a photo-chemical gateway in the following bullet point. 

Please provide a DNA Sample.

Please spit, bleed or ejaculate into the box.

Continue on a separate sheet, if required.

Please provide a lock of your hair.

We need this in order to add it to our private collection.

Gently fix it to the box provided.
