### Declaration

I hereby declare that I am a deadbeat scrounger without a single scruple in my pale, uninviting carcass. I willfully seek to draw government funds away from more exciting things, like bombing the crap out of someone else's country or equipping the police with big spiky sticks. I authorise any and all covert surveillance, wiretaps and interception of my mail that DoSS may, from time to time, deem necessary in the interests of claimant oppression.

## Our commitment to you

We will adhere to minimum standards of conduct and promise to never exceed them.

## Your commitment to us

### You agree:

- That this document forms part of a contract governed by and construed in accordance with the Laws of Canasta.
- To not reverse engineer or otherwise tamper with this form in order to create an alternate reality where your giro arrives on time.
- To take at least four instances of interrogation during the first three months of Surveillance Benefit.

### What do I do now?

- When you have answered all the questions, simply send it to us. Please do not roach the envelope as a frivolous expression of freedom you may have been led to believe you still enjoy. It may affect your claim. We will write to you about this - or rather, your NI Number will trigger a huge mainframe to churn out seven pages of rain forest in our name, and post it to you in a large unmistakable brown envelope with the words *dole draining scumbag* printed in red ink across the front. When we have finished laughing at your application, we will write to you to explain why you cannot have any money, but can continue to pay voluntary NI contributions.

### What if I don't understand?

- DoSS is committed to serving the community, so if you are in any way challenged by this form, just call our information line (24-hour ringing tone) and some men will come to your house to collect your details

### What if I have a question?

- We ask the questions. Don't forget that.

### What do I get?

- Well, that all depends on how we're feeling: but, as a general rule, nothing.

### What if I want to appeal?

- Your request will be reviewed by a special panel of spiteful paper-pushing automatons while your benefit is withdrawn and members of your family are followed. Your statutory rights are not effective.

Please do not write or mark below this line as we need somewhere to put our doughnuts while we are working on your claim
